Important information on registration and fees

- **Participants are highly encouraged to attend the entire event** (both the policy symposium and the workshop). However, participants have the option to attend either only the policy symposium (18 November) or only the workshop (19-21 November).
- The number of participants is limited to **100 for the policy symposium** and **50 for the workshop**.
- Participants will be selected by the workshop organisers based on planned utilisation of course lessons in current or future work.
- Selected participants will be contacted through email and participants will be asked to pay the registration fee to confirm their place in this event.
- The registration fee will include course materials, refreshments, and lunch.
- Participants are expected to bring their own laptops for practical sessions with MS Excel.
- Participants will be responsible for personal accommodation and transportation.
